

LightBound Webhosting Services

LightBound provides a comprehensive range of solutions for today's eBusinesses. LightBound's voice and data solutions help businesses increase their productivity and profitability.

The Value of a Web Presence

LightBound Hosting a LightBound Company, understands the value of your web presence. Today's Websites are dynamic, informational and mission critical.

Most consumers are using the Internet for product research, company information and of course, purchasing of goods and services.

Don't be left behind, let LightBound work with your company to help build, manage and grow your business on the World Wide Web.

Set Your Business Apart

Whether your company has had a web site for years or you're just launching your company's vision, LightBound Web Services can assist you in developing or updating your web presence. LightBound Web Solutions include:

- UNIX and Windows Hosting
- Latest software and Server Technologies
- Leased Dedicated Servers, Virtual Private Servers and Shared Hosting
- Site, Server and Database Management
- Domain Registration
- Live, Knowledgeable Support

Easy to Use Services and Software

As an LightBound hosting customer, enjoy one of the most hassle-free environments around. We provide

- An advanced management utility using our Personal Control Panel – allowing easy customization of your website, domain, mail and DNS
- Easy to use Online store capabilities, using the industry leader, Miva Merchant

Service and Quality You Can Count On

Providing quality service is very important to us. Our websites are hosted on reliable, high powered Dell web servers using the Intel Chipset.

Quality does not stop with the hardware; we employ a top quality team of professionals to make sure every aspect of hosting your website is taken care of 24 hours a day, 7 days a week.
